MINI CRICKET GROUND WITHIN YOUR COMPOUND

It's very rare to live in a gated community that has thought of everything, even your favourite sport. The open area in the central courtyard is a mini cricket stadium that can double as a track and field venue as well. So whether you are playing or cheering from the stands, it's a win! And sometimes acts as an annual gathering location.

TRACK THE FIELD

Take pleasure in the jog. Breathe in and out as you do your asanas. Conquer the skating rink, and the running track. Go on a spin on the cycle. Set the children free at the kids' park and watch them scamper in delight. Play badminton after sundown in the well-lit court. The outdoors is calling, and it's time you answered.

3

SKY IS YOUR LANDING FLOOR

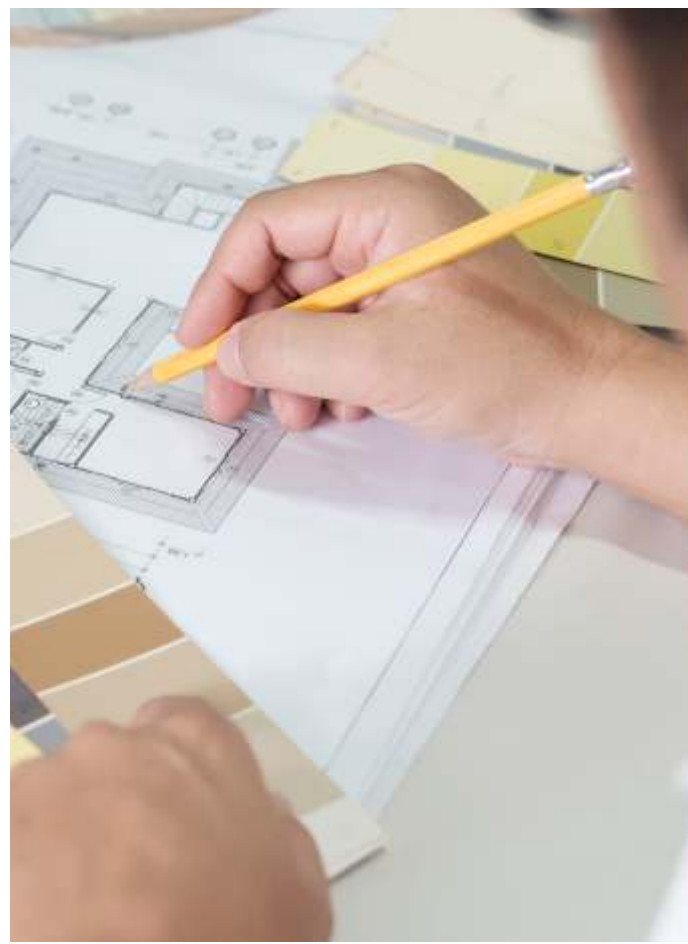

The future is ready to land on your home! In line with our forward thinking ethos, we recognize that air taxis and flying cars will be visible in the skies in some years from now and it pays to be prepared. So your tower has a helipad on the top should you need to commute via the skies. Get set, fly

DESIGNED
TO BE
FLEXIBLE

And voila, the living space can take on the shape and size you want! By using bricks with concrete in the internal walls, we give you the flexibility for partial personalisation despite a form work construction. Want more open space and the freedom to rearrange your home? Go right ahead - SMR Everest is your statement of style!
